🐄

Dairy cow

A cow raised to give milk. Most U.S. milk comes from cows.

⚫

Holstein

The black-and-white breed; about 80% of registered U.S. dairy cattle. Gives the most milk.

🟤

Jersey

A small brown breed. Its milk is high in fat (creamy).

🥛

Milking parlor

The barn room where cows are milked by machines.

Milk truck

The tank truck that hauls milk from the farm to the plant, kept under 40°F.

Pasteurize

Heat milk to destroy harmful bacteria (pathogens). It does not sterilize milk, so keep it cold.

Calcium

A mineral in milk that builds strong bones and teeth.

Colostrum

The first milk after a calf is born. It has antibodies that protect the calf.

Cheese

A food made when the milk protein (casein) clumps together (coagulates).

Ice cream

A frozen dairy food with at least 10% milk fat. Air whipped in is called overrun.
